If is the largest insurance company in the Nordics, helping around 4.6 million customers protect what matters most. We provide insurance for individuals, families, businesses, and large enterprises across Finland, Sweden, Norway, Denmark, and the Baltics. Today, more than 10,000 employees work at If.

Our promise to customers is simple:

If helps a lot.

This means being there not only when something goes wrong, but also helping people prevent problems before they happen and supporting them in everyday life. The most sustainable claim is the one that never needs to happen.
